3:00 PM	Adjourn	

Next Meeting:
Wednesday, November 17
1:30 PM – 3:00 PM

APCRC Announcements:

Annual assessment reports for each program (degree and certificate) are due within AEFIS the first Friday in December. There is a workshop online on November 1. More information here:

<https://today.wisc.edu/events/view/163449>. Like last year, there is an option to reflect on how Covid has affected students' completion of program learning outcomes; department chairs received a memo with the full instructions, and UPRC has reviewed the instructions. The traditional format may also be used. Your graduate program chairs may appreciate a reminder. All assessment reports must be up to date within a department for any new programs to be approved.

We are working on program proposals for Fall 2022 and starting to work on ideas for Fall 2023. If you are thinking of starting, suspending, discontinuing, or renaming/restructuring any program, please talk to Sara Hagen early in the process.

New course proposals for Summer 2022 must be fully complete and approved by departments by Nov 29. Course changes for Summer 2022 are due by October 25. See all 2021-22 departmental academic planning deadlines.

The Guide editing window for non-governed content (Overview, Funding, Professional Development, etc.) opens November 1. Please work with your Guide editors to complete edits by January 20.
